SUMMARY

My name is Ranit Santra, an engineering student in Electronics and Communications. I have foundational knowledge of Verilog and a keen interest in IoT. Passionate about web design, I understand HTML, CSS, touch of Java, and C, and am learning React. I've participated in hackathons, both offline and online, and aim to enhance my skills and leadership through continued participation. Outside of academics, I enjoy anime, music, and playing cricket with friends.

SKILLS

HTML

CSS

Java

C Programming

Verilog

IoT

UX/UI Designing
